PROFILE

Final-year Data Science student with hands-on experience in programming, data pipelines and machine learning. Currently working at BI Norwegian Business School as a teaching assistant, guiding students in Python, SQL and Web developing. Experienced in building data-driven applications and automated solutions.

EXPERIENCE

BI Norwegian Business School

2024 - PRESENT

Teaching Assistant

- Python (Pandas, NumPy):** Guided 200+ students through Python fundamentals and data manipulation libraries including Pandas and NumPy
- Database & data modelling:** Supported students in SQL querying, relational database design, and ER modelling.

Sinopec Group

Project Coordinator

2019 - 2023

- Inventory reporting & tracking:** Produced periodic inventory reports, monitoring stock levels and supply chain status.
- Power BI:** Built dashboards to track project budgets and visualize spend trends.

Projects

2023 - 2026

- Django & Python:** Built platform connecting 500+ students across Europe with secure messaging and matching algorithm
- Chrome Extension & JavaScript:** Built language learning tool for NRK with click-to-translate subtitles, flashcard system, and Anki export, 50+ active users within one week of launch.

EDUCATION

BI Norwegian Business School

2023 - 2026

Bachelor of Science in Data Science for Business

GPA: 4.6 / 5.0

University of Sydney Technology
